SANTOS

1 - **ROSINOX** hasn't got **VERTIGO** but have **HIGH ACCOLADE.**

Over 2 years ago , ROSINOX supplied 9 cooking islands to the world famous Armani Hotel in the prestigious Buji Kalifa tower in Dubai, the highest tower in the world.

The ROSINOX cooking equipment supplied, forms a major part of the international kitchens catering for the various international restaurants (Italian, Indian, Japanese...).

Products have been customized to client and consultant specifications.

2009

Then in 2011 ROSINOX has supplied the main kitchen to the highest tower in France , First Tower in Paris La Defense , the only one in France of this size having received the HQE certificate (High environnement Quality). Several thousand meals are served there everyday...

ROSINOX equipment will soon been installed in HERON TOWER (one of the highest towers in London) in the SUSHISAMBA Restaurant, the first UK site of American Sushi chain, complementing their 7 existing restaurants across the USA.

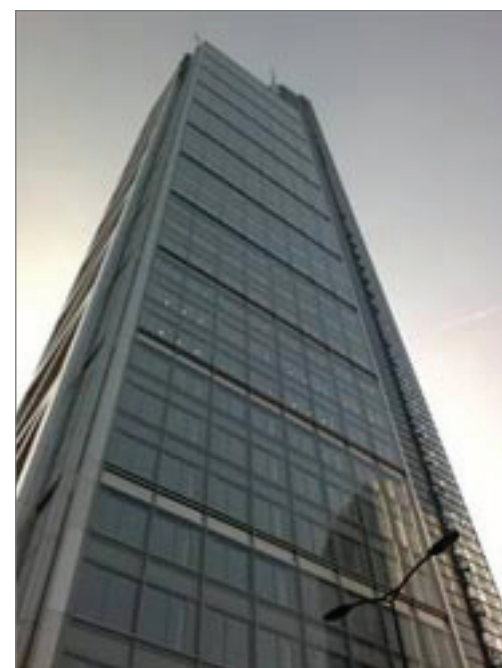

The restaurant will be situated on floors 38, 39 and 40 of Heron Tower.

2011

ROSINOX for HIGH ACHIEVEMENT with SOLID PERFORMANCE ON THE GROUND !

2012

1 - INTERCONTINENTAL HOTELS has chosen **TOURNUS** for its major new project in **Lagos, Nigeria**.

The new I.H.G hotel in Lagos is a massive investment: 400 rooms, 4 kitchens (main, Italian, Asian, all day dining with show cooking), 4 bars (main, Champagne, pool, panoramic).

TOURNUS EQUIPEMENT was selected by IHG and the owner due to its renowned reputation for made to measure heavy duty, hygienic equipment at competitive prices.

TOURNUS will supply all stainless steel kitchen equipment including tables, cabinets, hand wash basins, trolleys, shelving, etc.

Installation is already in progress and the opening is scheduled for the end of 2012.

3 - The Hospital Universitario de la Princesa in Madrid, Spain, has chosen the SOCAMEL meal delivery system, Double-Flow / Ergoserv for their in house patient catering.

SOCAMEL is pleased to announce "The Hospital Universitario de la Princesa" en Madrid, Spain, has chosen the Socamel meal delivery system, Double-Flow / Ergoserv for their in house patient catering.

The Hospital Universitario de la Princesa is one of the most prestigious hospitals in Spain, founded in April 1857.

Matachana, the SOCAMEL partner for Spain, has successfully followed this project, and will be implementing the system soon.

With more than 550 beds, the Hospital Universitario de la Princesa hospital will operate the SOCAMEL carts in Cook Serv process, for a better food temperature control all along the distribution, as well as an enhanced meal quality. Both for Breakfast, Lunch and Dinner meals, a great advantage of this equipment.

4 - SANTOS JUICERS in the U.S juice bar chain : JAMBA JUICE.

SANTOS signed an agreement with the world leader juice bar chain, Jamba Juice, to equip its 700 U.S sales points with its citrus juicer Evolution # 70.

In 2011, more than 300 Jamba Juice stores have already been equipped with Santos high output juicer # 70, result of 60 years' experience in the field of fresh fruit juices. More and more, the French manufacturer of commercial electrical appliances becomes the key partner of juice bars thanks to its full juice bar solution (blenders, juice extractors, citrus juicers).

SANTOS also starts to get into coffee shops with its new high performance Brushless Blender # 62 for smoothies, cocktails and iced coffee, integrating a new green technology.
