ADVENTYS
Record project in the USA
with 411 units installed
in Football stadium!

The Razorback stadium of the university of Arkansas opened for the football season of 2018-2019. The \$ 160 million renovation project had for goals to increase the stadium capacity (76 000 seats) & to enhance its visitors experience. If you have ever been to an American stadium – of any sports – you know how important the food is. By adding 411 Induc-Stone units: the invisible buffet solution patented by Adventys, the stadium now offers in all his VIP suits, & dining areas warm buffet stations. Thanks to our American distributors – Equipex – this project came to life in a record time and with record numbers.

The Invisible Induction is Adventys best-selling unit in 2018 with only being on the market for 3 years. This success story clearly shows that with innovative products, French companies can thrive internationally.

GO TO ADVENTYS

It is in “Thyme Boutique Hotel” (Gloucestershire - UK) that probably **one of the longest bespoke suites in company history** was installed.

Magnificent British racing green enamel finishing and large choice of appliances go with a refined menu and English country atmosphere.

The perfect balance of quality and attention established in dining room and kitchen provides a memorable experience, while green colour and bright steel frames of the suite contribute to creating of **dignity and simple grace impression** of the establishment.
